- Agile Software Development
- HTML{5} & CSS{3}
- PHP{5.2+}, including numerous PHP-based frameworks and Content Management Systems
- Git
- CMS Module/Extension Development [WordPress, Drupal, Magento, & Joomla]
- jQuery plugin development and plugin implementation
- Mustache and Handlebars Templating Engines
- Apache Web Server Deployment, Management, & Administration

Experience Summary

- 9+ years working with Adobe Photoshop and the rest of the Adobe Creative Suite for graphic design and web design purposes. This includes everything from logo design to basic graphic creation to complete template design, slicing, and implementation into various CMS platforms.
- 14+years working with HTML and CSS
- 6+ years working with PHP/MySQL, and [L|W]AMP servers
- 8+ years working with JS professionally
- 8+ years working with frontend frameworks and developing input-driven applications
- 6+ years experience architecting and building testable and reusable frontend UI components for use in web, native, or hybrid applications
- 3+ years experience leading and teaching backend/hybrid development teams to become more comfortable and proficient with modern frontend app development
- 2.5 years experience as a frontend lead on a diverse team located across multiple continents
- Excellent written and verbal communication skills, along with a strong ability to multi-task and be able to manage multiple deadlines on multiple projects at once.

- Able to work well with a team and effectively communicate thoughts and ideas.
- Strong problem-solving skills and ability to quickly adapt to new situations and needs.
- Constantly striving to deliver the highest-quality work possible while maintaining deadlines
- Unquenchable thirst to learn new ideas, points-of-view, strategies, and techniques to assure thoroughness in development and decision-making.
- Relentless drive to help make myself, my teammates, and my delivered work the best it can possibly be by staying aware of new development updates, trends, methods, frameworks, and techniques.
- Self-motivational skills allow me to thrive while working remotely, on my own, or as a relied-upon member of a team.

Software & Technologies

Frontend Frameworks, Plugins, and APIs:

- Angular & RxJS
- React & related tools (Redux, Reflux, etc)
- Bootstrap, as well as both React and Angular libraries built for use with it
- Material Design, as well as both React and Angular libraries built for use with it
- Microsoft Fluent UI
- RequireJS [AMD Loading]
- RactiveJS
- BackboneJS [JS Framework]
- Marionette [JS Framework built with Backbone]
- DirectorJS [Client-side Routing]
- Grunt [JS task-runner]
- AngularJS (limited)
- NodeJS
- various Google APIs
- Facebook API
- Twitter API
- Pinterest API
- jQuery plugin development and customization
- umerous other plugins and scripts.

Adobe Creative Suite:

- Photoshop
- Illustrator
- InDesign
- Premiere
- Some experience with After Effects

Database:

- MySQL and Microsoft SQL Server
- ExactTarget Data Extensions as a DB

- NoSQL [mongoDB]

Operating Systems:

- Microsoft Windows [XP, Vista, 7, 8, 10]
- Linux [Ubuntu, LAMP Server]
- OSX/MacOS

CMS/E-commerce:

- Magento E-commerce platform
- WordPress
- Joomla!
- VirtueMart (Joomla e-commerce)
- Drupal 7

Backend Frameworks:

- Yii
- Laravel
- Zend (limited)
- Implementation and maintenance of various ORM implementations

Other:

- SSH
- Web Server Deployment
- Maintenance
- & Administration
- Search Engine Optimization
- Microsoft Office Suite
- OpenOffice.org Suite
- VS Code, Sublime Text, other IDEs
- Sublime Text 2/3
- NetBeans IDE
- Firebug/Chrome Developer Tools
- Facebook Applications
- Google Developer Tools
- Anything else you can throw at me

Relevant Work Experience

Frontend Developer

DeveloperTown

Indianapolis, IN, April 2019 - Present

- Custom applications development using React (with Redux, Typescript, Material UI)
- Clients include Cummins, Samaritan Ministries, and
- Approximately 3-months spent working with Cummins, Inc.
